A. Ideal for gardening and applying cleaning products, among other functions. Available in green (0321.08) and orange (0321.07). Fitted with locking nozzle, which prevents accidents with children.

B. Designed for ironing, gardening, swimming pools and deodorizing environments, among other functions. Available in blue (0326.50.15) and violet (0326.50.25). Made of PET.

C. For applying cleaning products and window cleaning, among other functions. Fitted with locking nozzle, which prevents accidents with children (0321.04).

D. Handy for localised pest control jobs and where a more precise application is required. It is not necessary to pump during use. The handle is incorporated into the tank, which facilitates handling, cleaning and filling (0424.00).

E. General purpose spray, available in 3 sizes and colours: 300ml (pink, green and orange - 0325.30), 500ml (green and orange - 0325.50) and 750ml (green and orange - 0325.75).

F. Hygienic and durable, easy to handle, non-slip base and pedal and fitted with handle for easy opening of the lid. Made of 100% plastic. Available in 3 colours (beige, gray and white). Capacities: 5 litres (0295.00) and 12 litres (0300.00).

G. Made of robust durable polyethylene plastic (0320.21.50P).
